

Your Benefits Won't Immediately Stop When You Get a Job...

Here is What Really Happens

Temporary Assistance (Cash Benefits)

Once you start working, you might still be able to receive a cash benefit for up to a year, and while receiving a cash benefit you still have help from the Missouri Work Assistance (MWA) team. MWA can help with determining your next career path, transportation costs, items needed for your job, and much more.

Need help finding an MWA provider address and phone number? Go to dss.mo.gov/dssmap or call **1-855-373-4636**.

Food Stamps (SNAP)

After you get a job, you may still be able to receive food stamps. For about every \$3 you earn you will get \$1 less on your EBT card. This is because your job will now provide you with money. While receiving food stamps, SkillUP coaches can help you with transportation costs, items needed for your job, and coaching.

Need help finding a SkillUP coach? Go to mydss.mo.gov/food-assistance/missouri-employment-training-program to find a provider in your area, or call **1-855-373-4636**.

Child Care

If you are now receiving childcare, you may continue to receive the same benefits up to one year after you get a job. If you are not getting child care, you can apply for benefits at dss.mo.gov/fsd/child-care

Medicaid

If you now receive or have received MOHealthNet for Families for at least three of the last six months, you may qualify for transitional benefits for up to a year. To find out more, go to: mydss.mo.gov/healthcare

SOUTHERN MISSOURI WORKS PROJECT

DO YOU RECEIVE FOOD STAMPS?

READY FOR A NEW OPPORTUNITY...

- Southern Missouri Works Project can help you by providing short term training at no cost to you whether you have a job or not...
